Summary

Trilingual (Japanese, Korean, English) talent acquisition partner with 9+ years of full-cycle hiring in Japan and Korea: the last 5 in-house at Salesforce (enterprise SaaS) and Anthropic, after more than four years of agency search at RGF. Hires Sales and Go-to-Market talent, from AEs to Solution Engineers and Technical Architects, and advises VPs and Country Managers on Japan's talent market, role design and offers. Runs hiring on data (102% of the 2025 hiring target at Salesforce) and champions AI in recruiting. Most recently made 3 hires for Anthropic Japan's early team: Head of Partnerships, Partnerships, and its first Applied AI Partner Architect.

Experience

Anthropic Japan
Tokyo, Japan

GTM Recruiter
05/2026 - Present

- Made 3 hires for Anthropic Japan's early team: Head of Partnerships, Partnerships, and its first Applied AI Partner Architect.
- Owned 8+ concurrent searches in Anthropic's early Japan/Korea build-out, from Partnerships and leadership roles to Applied AI Architects and Engineers.
- Led outbound sourcing for Applied AI and Partner Architect roles through AI-assisted market mapping, backchannel referrals and sourcing partnerships with global recruiting teams.
- Set up Japan recruiting operations from an early stage: pipeline strategy, operating processes and an agency engagement model built for the local market.
- Built internal AI tools with the global recruiting team for talent-market mapping, ATS workflow customization and automated candidate triage.
- Recalibrated HQ interview standards for Japan/Korea candidates with interview teams: added an English screening question, ran HM calibration and pre-briefed interviewers via Slack.

Salesforce Japan
Tokyo, Japan

Senior Employee Recruiter
09/2021 - 05/2026

- Carried 15 concurrent full-cycle reqs on average (IC to VP) across Japan and Korea since Q1 2025, spanning Sales and Sales Engineering roles (AEs, Solution Engineers, Technical Architects) as well as Legal and Operations.
- Advised VPs, Country Managers and functional leaders on role design, leveling, interview calibration and market-specific talent strategy, leading to first-of-its-kind hires in Japan such as a Revenue Cloud AE, within deadline.
- Delivered 102% of the 2025 annual hiring target and 92%+ on-time fulfillment in 2024; ranked #2 recruiter in Japan/Korea by external hires in Q2 2025 (19 vs. a 10.1 team average).
- Tracked recruiting metrics in Tableau dashboards for funnel health, bottlenecks and hiring forecasts; reviewed them weekly to quarterly with hiring managers and leadership.
- Led AI enablement across recruiting workflows, driving roughly 2.5× AI-tool adoption from JP/KR recruiting team users over 3 months, and built Slack workflow automations.
- Designed and launched a Korea referral fast-track that cut average time-to-hire by 5 days and lifted first-round interview rates 12%.
- Held a 93% offer-acceptance rate and 4.3/5 candidate survey score (both top 25% among the JP/KR recruiting team in 2025) by owning offer conversations and the candidate experience from first outreach to close.
- Partnered with the D&I team on sourcing and hiring programs, contributing to a 20% increase (from 0 to 2 hires over 2 quarters) in women hired onto the Tableau Solution Engineer team.

RGF Professional Recruitment Japan
Tokyo, Japan

IT/Game Industry Consultant
04/2017 - 09/2021

- Ran end-to-end agency search (headhunting) and business development for engineering and creative roles in Japan's game industry, winning multiple retained search agreements with leading game companies.
- Ranked Top 5 biller (96th percentile) in Q1 2021 and Top 35 firm-wide in Q2 2021.
- Wrote a Python/JavaScript outreach automation tool that cut team outreach time 30% and overtime by about 1.5 hours a day per person.
- Developed non-traditional pipelines through tech schools, game academies, GitHub and ArtStation, adding 28+ qualified candidates, the most on the team.
